Art Deco & Late 19th Century Collection

Art Deco is an opulent and alluring visual arts design style that unfolded in the 1920s in France. It burgeoned internationally in the early 1940s. This style still has a boundless influence on everything from architecture to sculpture, interiors to jewelry, furniture to car design. It is no doubt that Art Deco is a conspiracy between many styles and movements to please every connoisseur out there.

Luxury is when
it seems flawless, when
you reach the right
balance between all
elements.

- *Jean-Louis Deniot*

Enter the world of The Great Gatsby, where eternal allure and old-school glamour join hands.

**"Art Deco was all about moving away from the past and paving a new way for the future, culturally and aesthetically, which meant keeping some decorative elements but also giving them a sleeker, cosmopolitan twist."
